Summary

Full-stack web developer with hands-on experience in MERN stack, REST APIs, and MVC architecture. Strong fundamentals in DSA, DBMS, and Operating Systems.

Education

SSBT's College of Engineering and Technology, Bambhori, Jalgaon

August 2023 - May 2027

Bachelor of Engineering in Computer Engineering

CGPA: 8.2 / 10

Experience

Web Development Intern

August 2025 – September 2025

ShadowFox (Remote)

Tools Used: React.js, Node.js, SQL

- Worked on full-stack technologies to develop and maintain responsive web features across internal projects.
- Built and improved frontend components using React.js, resulting in smoother UI interactions and enhanced user experience.
- Developed backend APIs using Node.js and Express.js, improving data flow and application reliability.
- Collaborated with cross-functional teams to deliver features, fix issues, and ensure timely project updates.

Projects

StaySphere | Link | Node.js, Express.js, MongoDB, EJS

Nov 2025 – Dec 2025

- Developed a full-stack accommodation booking web application using Node.js, Express.js, MongoDB, and EJS.
- Implemented authentication, session management, and role-based authorization using Passport.js.
- Followed MVC architecture and integrated image uploads using Multer and Cloudinary.
- Built secure CRUD APIs for listings and reviews with server-side validation.

VyapaarX | Link | Node.js, Express.js, MongoDB, React.js

Jan 2026 – Feb 2026

- Built a full-stack stock trading web application enabling users to place buy/sell orders and track investments.
- Implemented JWT-based authentication to secure user sessions and protect backend APIs.
- Developed RESTful APIs for managing orders, holdings, and positions using MongoDB.
- Designed an interactive trading dashboard with portfolio, orders, and watchlist features.
- Deployed the complete application on AWS using AWS Amplify and cloud backend services.

Technical Skills

Languages: C, C++, JavaScript

Frontend: React.js, Bootstrap, Tailwind

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL

Core Subjects: Data Structures and Algorithms, Operating Systems, Networking, DBMS, OOP's

Tools: Git, GitHub, Postman, VS Code, Docker

Achievements & Certifications

- **AWS Cloud Technical Essentials – Coursera (2025):** Learned core AWS services such as EC2, S3, VPC, Lambda, and IAM, and gained hands-on experience in cloud concepts, deployment, security, and monitoring.
- **Qualified and competed at the All India University Games in Fencing,** representing my university at a national competitive level.
