Summary

Full-Stack Developer with experience building scalable MERN-stack applications using React.js, Node.js, Express.js, and MongoDB. Skilled in developing REST APIs, implementing authentication, and deploying cloud-based applications. Strong foundation in Data Structures, Algorithms, DBMS, and Operating Systems.

Education

SSBT's College of Engineering and Technology, Bambhori, Jalgaon

August 2023 - May 2027

Bachelor of Engineering in Computer Engineering

CGPA: 8.2 / 10

Experience

Web Development Intern

August 2025 – September 2025

ShadowFox (Remote)

Tools Used: React.js, Node.js, SQL

- Worked on full-stack technologies to develop and maintain responsive web features across internal projects.
- Built and improved frontend components using React.js, resulting in smoother UI interactions and enhanced user experience.
- Developed backend APIs using Node.js and Express.js, improving data flow and application reliability.
- Collaborated with cross-functional teams to deliver features, fix issues, and ensure timely project updates.

Projects

StaySphere | Link | Node.js, Express.js, MongoDB, EJS

Nov 2025 – Dec 2025

- Developed a full-stack accommodation booking web application using Node.js, Express.js, MongoDB, and EJS
- Implemented authentication, session management, and role-based authorization using Passport.js
- Followed MVC architecture, integrated image uploads using Multer and Cloudinary, and designed a responsive UI with Bootstrap
- Built secure CRUD APIs for listings and reviews with server-side validation

VyapaarX | Link | Node.js, Express.js, MongoDB, React.js

Jan 2026 – Feb 2026

- Built a full-stack stock trading platform enabling users to execute buy/sell orders and monitor investment portfolios in real time.
- Implemented JWT-based authentication and authorization to secure user sessions and backend APIs.
- Developed RESTful APIs for order management, portfolio holdings, and position tracking using MongoDB and Express.js.
- Designed and integrated an interactive trading dashboard featuring portfolio analytics, order history, and watchlists.
- Deployed and maintained the application on AWS using AWS Amplify, ensuring scalability and high availability.

Technical Skills

Languages: C, C++, JavaScript

Frontend: React.js, Redux, Bootstrap

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL

Core Subjects: Data Structures and Algorithms, CN, OS, DBMS, OOP's

Tools: Git, GitHub, Postman, VS Code

Achievements & Certifications

- **Competitive Programming:** Solved 300+ DSA problems on LeetCode, achieving a rating of 1420 and demonstrating strong problem-solving and algorithmic skills.
- **CodeThon Competition:** Secured First Prize in the CodeThon competition, recognized for outstanding programming skills and the ability to solve complex problems efficiently.
- **AWS Cloud Technical Essentials – Coursera (2025):** Learned core AWS services such as EC2, S3, VPC, Lambda, and IAM, and gained hands-on experience in cloud concepts, deployment, security, and monitoring.
- **Qualified and competed at the All India University Games in Fencing,** representing my university at a national competitive level.
